How are JP Decor panels delivered?

JP Decor 3D Flexpanel | Shipping Information

JP Decor panels can be shipped in two ways, depending on the order size and destination. Both shipping methods arrive with safe, professional packaging.

The two shipping methods

Cylinder Roll

Courier / Freight – All of Europe

Thanks to the flexible structure of JP Decor 3D Flexpanel, the panels can be **rolled into a cylinder** and shipped in this compact form by courier or freight forwarder, to any destination across Europe.

**Ø 250 mm × 2850 mm |
18 kg**

Diameter 250 mm | Length 2850 mm |
Weight incl. packaging: 18 kg

The full-size (2850 mm) panel arrives in **cylindrical form**, with bubble wrap and cardboard outer protection, labelled with a JP Decor identification sticker.

Truck Freight

Pallet shipment – Larger orders

For larger orders, panels are delivered **on pallets by truck**. This shipping method is suitable for full stock deliveries, consignment replenishments, and wholesale orders.

2850 × 1250 mm pallet

Maximum 100 panels / pallet | Max. load:
1,600–1,800 kg

Panels are placed **flat on the pallet with colours interleaved**, then the entire pallet is **wrapped in protective film** and **secured with corner protectors**.

Packaging meets international shipping standards.

Dispatched from JP Decor warehouse, Hungary, to all of Europe.

Packaging in pictures

Cylinder roll shipping – bubble wrap protection, JP Decor identification label attached

Truck freight – stretch-wrapped on 2850×1250 mm pallet, secured with corner protectors

Comparison

Feature	Cylinder Roll	Truck Freight
Packaging	Bubble wrap + cardboard cylinder	Pallet + aluminium foil + cardboard
Dimensions	Ø 250 mm × 2850 mm per roll	2850 × 1250 mm pallet
Weight	18 kg (incl. packaging)	Max. 1,600–1,800 kg / pallet
Shipping area	All of Europe	All of Europe
Carrier	Courier / Freight forwarder	Truck / Freight forwarder
Lead time	Fast, flexible	Agreed delivery date

Please note: The cylinder roll shipping method applies exclusively to the JP Decor 3D Flexpanel product range, which can be rolled due to its flexible material structure.

How to order

Placing your order: All orders must be placed through the JP Decor B2B platform. In the comments field, please indicate your preferred shipping method.

Step	Action
1.	Log in: https://b2b.jpdecor.eu
2.	Select the desired panel(s) (SKU, colour, quantity)
3.	In the comments field, write: "Cylinder roll shipping" or "Truck freight", and if needed: "Cut to size: [XXX] mm"
4.	Provide the delivery address – JP Decor will confirm the shipping terms
